

Resolution of the 3rd International conference of Science and Technology for Safe Development of Lifeline System Natural risks

The third meeting of the Geophysical section B of the CEI's Committee took place in Bucharest (Hotel Ibis, Izvor street 82-84) between 24th and 26th October 2007.

The participants decided:

1. To organize the next fourth meeting in Macedonia in 2009. The responsible organizer is Prof. Snezana Stamatovska (Institute of Earthquake Engineering Seismology, Skopje). The participants are asking for logistic and financial support of CEI and OEA – ICTP, Trieste.
2. The papers and posters presented at the Bucharest meeting will be published in Acta Geodaetica et Geophysica Hungarica in 2008. The authors are asked to send their contributions to Peter Varga by E-mail not later than January, 31, 2008. The guest editors of the special issue are: Mircea Radulian and Peter Varga who are responsible for the scientific review of the papers. The paper length is limited to 15 pages, including figures, tables and references.
3. The participating institutions are encouraged to set up bi-, three- and multilateral common research projects under the supervision and support of CEI, EU and NATO. The President and Secretary of the CEI's Earth Science Committee are asked to support such initiatives of member countries.
4. The participants express their thanks for the support of the organization of the third meeting of Section B Geophysics for the authorities of CEI in Trieste. The participants acknowledge the excellent organization of the event done by the National Institute for Earth Physics and they are especially thankful to General Director Prof. Dr. Eng. Gheorghe Marmureanu, Scientific Manager Prof. Dr. Mircea Radulian and Dr. Mihaela Popa.

Bucharest, 26 October 2007

Giuliano F. Panza
President

Peter Varga
